MANAGEMENT DISCUSSION & ANALYSIS REPORT

The purpose of this discussion is to provide an understanding of financial statements and a composite summary of performance of our business.

Management Discussion and Analysis (MDA) includes Overview of Indian Economy, Construction Industry Overview, Business Overview, Financial Performance and Highlights, Internal Control Systems and adequacy, Material Development in Human Resources

Indian Economy Overview

Infrastructure in any country plays a vital role for the economy's growth and development. The Indian economy is getting bigger and better with every passing year. And needless to say, Infrastructure will contribute significantly to the country's overall development. Nearly all the infrastructure sectors will provide excellent opportunities for investments, with roads, railways, ports, power and airports being the major attractions.

Construction Industry Overview

The Construction Industry in India plays a vital role in economic activity after agriculture and provides employment to large amount of people. Broadly, construction can be classified into two segments – infrastructure and real estate.

The infrastructure segment involves construction projects in different sectors like roads, rails, ports, irrigation, power, etc. Investment in the infrastructure sector plays a crucial role in the growth of the economy of the country. Development of infrastructure in the country mainly depends upon the spending by GOI in various subsegments of infrastructure.

Business Overview

We are currently engaged in the providing land development, construction services and other related services for civil & structural construction and infrastructure sector projects. The aforementioned services are currently provided by us through our third party vendor contractors to whom we subcontract construction and other execution work related to projects. The registered office of our Company is situated at Kolkata and project sites are situated at various places in India. Our Company was initially incorporated with the object of trading. We started construction activities in FY 2007-08.

Currently, we subcontract specific construction and execution work related to projects to third party contractors. As soon a contract is received by us, we initiate the process of finalising the sub contractor for execution of the same and enter into a sub contract agreement. We have in the past entered into project specific sub contract agreements or joint ventures with various companies and will continue to do so.

Till date the majority of the projects undertaken by us include Land & Site Development including land filling, land clearing, site clearing etc. and Civil Construction projects, which include commercial, residential and industrial structures etc.

Financial Resources

The Net Worth of our Company as on March 31, 2014 is Rs. 4133 Lacs which allow our Company to bid for and undertake higher value projects. This assumes significance when we take into account that the leading infrastructure companies are passing on the projects awarded, to contractors down the line. Further, most of our clients are private sector entities and we have not faced many challenges as far as billing and collections are concerned. We have not had any bad debts so far and we do not have any outstanding debtor's position for more than six months.

Internal Control System and Adequacy

Internal Control Systems has been designed to provide reasonable assurance that assets are safeguarded, transactions are executed in accordance with management's authorization and properly recorded and accounting records are adequate for preparation of financial statements and other financial information. Internal check is conducted on a periodical basis to ascertain the adequacy and effectiveness of internal control systems.

Material Development in Human Resources

During the year, your Company has appointed Company Secretary and Compliance Officer to look over various complinaces. The Company continues to lay emphasis on developing and facilitating optimum human performance management was the key word for the Company this year.

Opportunities And Threats

The performance of capital market in India has a direct correlation with the prospect of economic growth and political stability. Though the growth projections for FY 2013-14 appear reasonable, there are certain downside risks such as pace and shape of global recovery, effect of withdrawal of fiscal stimulus and hardening of commodity prices. Our business performance may also be impacted by increased competition from local and global players operating in India, regulatory changes and attrition of employees. With growing presence of players offering advisory service coupled with provision of funds for the clients' needs, we would face competition of unequal proportion.

Risks And Concerns

This section contains forward – looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these statements. As the industrial and economic growth of the country is showing steady improvement. There is no perceived risk and concern in this area of business and there is an ample scope for growth in India itself. Forward looking statements are based on certain assumptions and expectations of the future events that are subject to risks and uncertainties. Actual future results and trend may differ materially from historical results, depending on variety of factors. There risk and concerns faced by the Company are similar to those faced by any growing organization in today dynamic industrial and economic scenario.

Discussion On Financial Performance With Respect To Operational Performance

The details of the financial performance are appearing in the financial statements separately. The highlights of the same are also mentioned in the Directors' Report.

Cautionary Statement

Certain statements under "Management Discussion & Analysis" describing the Company's objectives, projections, estimates, expectations or predictions may be forward looking statement within the meaning of applicable securities laws and regulations. Although the expectations are based on reasonable assumptions, the actual results could materially differ from those expressed or implied, since the Company's operations are influenced by many external and internal factors beyond the control of the Company. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (b) in the case of the Statement of Profit and Loss of the profit of the Company for the financial year ended on that date, and
- (c) in the case of the Cash Flow Statement of the cash flows of the Company for the Year ended on that date.

CORPORATE INFORMATION

SILVERPOINT INFRA TECH LIMITED is a limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is in the business of providing land development, construction services and other related services for civil & structural construction and infrastructure sector projects.

Note- S

SIGNIFICANT ACCOUNTING POLICIES & NOTES :

1. Basis Of Preparation of Financial Statements

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The company has prepared these financial statements to comply in all material respects with the accounting standards notified under the Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 1956.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

The financial statements have been prepared on an accrual basis except as otherwise stated.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule VI to the Companies Act, 1956. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company ascertains its operating cycle for the purpose of current/non-current classification of assets and liabilities.

2. Summary of significant accounting policies

a. Presentation and disclosure of financial statements

During the year ended 31st March 2011, Revised Schedule VI notified under the Companies Act 1956, has become applicable to the company, for preparation and presentation of its financial statements. The adoption of revised Schedule VI does not impact recognition and measurement principles followed for preparation of financial statements. However, it has significant impact on presentation and disclosures made in the financial statements. The Company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

The revised schedule VI allows line items, sub-line items and sub-totals to be presented as an addition or substitution on the face of the financial statements when such presentation is relevant to an understanding of the company's financial position or performance or to cater to industry/sector-specific disclosure requirements.

b. Use Of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c. **Cash and cash equivalents**

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

d. **Provision For Current And Deferred Tax**

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

e. **Investments**

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as Current Investments. All other investments are classified as Long Term Investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Both current investments and long term investments are carried in the financial statements at cost.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

f. **Current Assets, Loans & Advances**

In the opinion of the Board and to the best of its knowledge and belief the value on realisation of current assets in the ordinary course of business would not be less than the amount at which they are stated in the Balance Sheet and repayable on demand.

g. **Fixed Assets and Depreciation**

Tangible Assets

Tangible assets are stated at their cost of acquisition net of receivable CENVAT and VAT Credits. All costs, direct or indirect, relating to the acquisition and installation of fixed assets and bringing it to its working condition for its intended use are capitalised and include borrowing costs and adjustments arising from foreign exchange rate variations directly attributable to construction or acquisition of fixed assets. Depreciation on fixed assets is provided on straightline method (SM) on a pro-rata-basis at the rates and in the manner specified in Schedule XIV to the Companies Act, 1956. In respect of assets acquired/sold during the year, depreciation has been provided on pro-rata basis with reference to the days of addition/put to use or disposal.

h. **Impairment of tangible and intangible Assets**

Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use i.e. the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognized.

i. **Recognition of Income & Expenditure**

Income and expenditure is recognized and accounted for on accrual basis. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue from sale of goods is recognised on transfer of significant risks and rewards of ownership to the customer and when no significant uncertainty exists regarding realisation of the consideration. Sales are recorded net of sales returns, sales tax/VAT, cash and trade discounts.

j. **Earning Per Shares**

The Company reports Basic and Diluted earnings per equity share in accordance with the Accounting Standard - 20 on Earning Per Share. In determining earning per share, the Company considers the net profit after tax and includes the post tax effect of any extraordinary/exceptional items. The number of shares used in computing basic earning per share is the weighted average number of equity shares outstanding during the period. The numbers of shares used in computing diluted earning per share comprises the weighted average number of equity shares that would have been issued on the conversion of all potential equity shares. Dilutive potential equity shares have been deemed converted as of the beginning of the period, unless issued at a later date.

k. **Provision, Contingent Liabilities and Contingent Assets**

NOTES TO AND FORMING PART OF CONSOLIDATED BALANCE SHEET AND STATEMENT OF PROFIT AND LOSS FOR THE YEAR ENDED 31/03/2014

CORPORATE INFORMATION

SILVERPOINT INFRA TECH LIMITED is a limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is in the business of providing land development, construction services and other related services for civil & structural construction and infrastructure sector projects.

Note- U

SIGNIFICANT ACCOUNTING POLICIES & NOTES :

1. Basis Of Preparation of Financial Statements

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The company has prepared these financial statements to comply in all material respects with the Accounting standard (AS) 21 CONSOLIDATED FINANCIAL STATEMENTS, notified under the Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 1956.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

The financial statements have been prepared on an accrual basis except as otherwise stated. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule VI to the Companies Act, 1956. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company ascertains its operating cycle for the purpose of current/non-current classification of assets and liabilities

2. Summary of significant accounting policies:

a. Presentation and disclosure of financial statements

During the year ended 31st March 2011, Revised Schedule VI notified under the Companies Act 1956, has become applicable to the company, for preparation and presentation of its financial statements. The adoption of revised Schedule VI does not impact recognition and measurement principles followed for preparation of financial statements. However, it has significant impact on presentation and disclosures made in the financial statements. The Company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

The revised schedule VI allows line items, sub-line items and sub-totals to be presented as an addition or substitution on the face of the financial statements when such presentation is relevant to an understanding of the company's financial position or performance or to cater to industry/sector-specific disclosure requirements.

b. Use Of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c. **Miscellaneous Expenditure (To The Extent Not Written Off Or Adjusted)**

The amount of preliminary expenses has been written off over a period of 5 years as per the provision of Sec 35 of Income Tax Act'1961.

d. **Cash and cash equivalents**

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

e. **Provision For Current And Deferred Tax**

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

f. **Investments**

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as Current Investments. All other investments are classified as Long Term Investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Both current investments and long term investments are carried in the financial statements at cost.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

g. **Current Assets, Loans & Advances**

In the opinion of the Board and to the best of its knowledge and belief the value on realisation of current assets in the ordinary course of business would not be less than the amount at which they are stated in the Balance Sheet and repayable on demand.

h. **Fixed Assets and Depreciation**

Tangible assets

Tangible assets are stated at their cost of acquisition net of receivable CENVAT and VAT Credits. All costs, direct or indirect, relating to the acquisition and installation of fixed assets and bringing it to its working condition for its intended use are capitalised and include borrowing costs and adjustments arising from foreign exchange rate variations directly attributable to construction or acquisition of fixed assets. Depreciation on fixed assets is provided on straightline method (SM) on a pro-rata-basis at the rates and in the manner specified in Schedule XIV to the Companies Act, 1956. In respect of assets acquired/sold during the year, depreciation has been provided on pro-rata basis with reference to the days of addition/put to use or disposal.

i. **Impairment of tangible and intangible assets**

Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's

net selling price and value in use i.e. the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognized

j. Recognition of Income & Expenditure

Income and expenditure is recognized and accounted for on accrual basis. Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue from sale of goods is recognised on transfer of significant risks and rewards of ownership to the customer and when no significant uncertainty exists regarding realisation of the consideration. Sales are recorded net of sales returns, sales tax/VAT, cash and trade discounts.

k. Inventories

'Finished and Semi-Finished products produced and purchased by the Company are carried at lower of cost and net realisable value after providing for obsolescence, if any.

'Cost of inventories comprises all costs of purchase, cost of conversion and other costs incurred in bringing them to their respective present location and condition.

l. Earning Per Shares

The Company reports Basic and Diluted earnings per equity share in accordance with the Accounting Standard - 20 on Earning Per Share. In determining earning per share, the Company considers the net profit after tax and includes the post tax effect of any extraordinary/exceptional items. The number of shares used in computing basic earning per share is the weighted average number of equity shares outstanding during the period. The numbers of shares used in computing diluted earning per share comprises the weighted average number of equity shares that would have been issued on the conversion of all potential equity shares. Dilutive potential equity shares have been deemed converted as of the beginning of the period, unless issued at a later date.
